*Atmosphere-Ocean* is the principal scientific journal of the Canadian Meteorological and Oceanographic Society (CMOS). It contains results of original research, survey articles, notes and comments on published papers in all fields of the atmospheric, oceanographic and hydrological sciences. Arctic, coastal and mid- to high-latitude regions are areas of particular interest. Applied or fundamental research contributions in English or French on the following topics are welcomed:

- climate and climatology, observation technology, remote sensing; forecasting, modelling, numerical methods; physics, dynamics, chemistry, biogeochemistry; boundary layers, pollution, aerosols, circulation; cloud physics, hydrology, air-sea interactions, waves, ice, energy exchange and related environmental topics.

Contributors need not be members of the Society nor need they be Canadian; foreign contributions are welcomed. All submissions are subject to a critical review before acceptance.

**Impact Factor: 1.304**

## Why publish with us?

- 5-year Impact Factor 1.605 (2010 JCR®), ranking the journal 34/59 (Oceanography) and 44/68 (Meteorology and Atmospheric Sciences)
- Easy online manuscript submission (<http://mc.manuscriptcentral.com/a-o>)
- Friendly and personable interaction with dedicated Co-Editors and Technical Editor
- High quality technical editing and production
- Supplementary material can be attached electronically
- Online early publication of papers through iFirst
- Page charges (CAD\$115 per page) cover unlimited use of colour graphics
- 50 free reprints for each paper
- Page charges waived for first time Canadian authors\*\*
- Publish your research in a Canadian journal – gain recognition from Canadian research centres and government bodies
- Contribute towards establishing Canada as a research leader
- Support from a commercial publisher – giving your research high international visibility
- All abstracts are published in English and French
- Online version available free to all CMOS members (via Members Services site)
- Preferential print subscription offered to CMOS members (CAD\$30 per annum)
- Disseminate your research in developing countries through Taylor & Francis' philanthropic initiatives
